Yuri Escalera

Jackson, GA | 404-565-3148 | yuriaescalera@gmail.com

Technical Skills

Recent

- Game design documentation and system planning (Notion, Lucidchart)
- Microsoft Office Suite and Google Workspace
- Fundamental programming and reverse engineering concepts
- Logistics, inventory handling, and operational coordination

Latent

- Electrical wiring, conduit installation, and fire alarm system setup
- Power systems: breakers, panels, cable routing, and troubleshooting

NCCER EEST Curricula Coverage

Experience

Lead Game Designer | Credenzio Studios (Jan 2024 – Dec 2025)

- Produced Game Design Documents (GDDs) outlining gameplay systems, levels, quests, and mechanics.
- Designed quests, NPC behavior, and gameplay loops using developer-provided modules.
- Collaborated with programming, level design, and QA teams to ensure production standards.
- Assessed incident reports, player feedback, and other materials in order to execute iterative product improvements.
- Utilized Notion and LucidChart for development documentation and planning.

Fire Alarm Installation Technician | Fire Brigade Alarm Systems (May – Oct 2023)

- Installed commercial fire alarm systems including wiring, conduit, and detection devices.
- Routed wiring through walls, ceilings, and HVAC systems in active construction environments.
- Supervised a team of two technicians during installation projects.
- Ensured system installation met safety and operational standards.

Electrician Apprentice — Ehrlich Electric (Nov 2022 – Mar 2023)

- Installed and serviced residential electrical systems including lighting, breakers, and wiring.
- Assisted with smart home and security system installations.

- Managed warehouse inventory and supply distribution.
- Diagnosed and troubleshot electrical faults in residential environments.

Support Staff — The Epstein School (2018 – 2023, seasonal)

- Managed package intake, purchase order verification, and internal delivery logistics.
- Assisted reception operations and facility coordination
- Supported COVID era safety installations including plexiglass barriers and temporary structures.
- Provided assistance to kitchen and maintenance staff during operational transitions.

Catering Assistant — 'Leave It…To Me!' (2016 – 2018)

- Supported high-value catering events specializing in food presentation, service, and client interaction.
- Assisted with setup, cleanup, and operational logistics for catered events.

Education and Certification

- Associate of Applied Science — Electrical & Electronic Systems Technology (Lincoln Technical Institute)
- M3DS Unreal Engine Specialized Program
- High School Diploma
- Microsoft Office Specialist (MOS) Certification
